

## OdorBar™ Everlasting Hand Deodorizing Soap

### Features & Benefits

- Eliminates onion, garlic, spice, fish, seafood, meat, smoke, paint, gas & other unpleasant hand odors
- Removes hand odors instead of masking them with fragrances
- Never loses its odor eliminating power & lasts forever
- Safe, environmentally friendly, non-toxic, odorless
- Non polluting so it can be used safely indoors & outdoors
- Designed to float so it won't get lost in lakes & fishing streams
- Ideal for homemakers, cooks, chefs, food handlers, fisherman & outdoor recreation enthusiasts
- Made from stainless steel to match similar appliances
- To use, just rinse hands under cold water with OdorBar™

### Hand Odor Problem

It can be fun to cook but odors from onions, garlic, spices, seasonings, fish, seafood, poultry and other food can penetrate your hands and leave unpleasant lingering odors. In addition, odors from bait, fishing, hunting, game, smoke, paint, varnish, gas and various chemicals can also leave your hands smelling.

### The Solution

The amazing OdorBar™ Hand Deodorizing Soap was specially developed to eliminate strong unpleasant food and chemical hand odors without regular soap or scrubbing. This attractive light weight deodorizing soap is an ideal accessory for homemakers, cooks, professional chefs, food handlers, fisherman and outdoor recreation enthusiasts. OdorBar™ has fast become an indispensable odor eliminator for hands whether you are preparing food indoors or enjoying the great outdoors. This non polluting deodorizing soap has also quickly become a favorite with fisherman since it floats so there is little risk of dropping and losing OdorBar™ in a lake or fishing stream. Its slick compact shape takes up very little space in a tackle box and will also match your beautiful stainless steel appliances perfectly!

**How does it Work?**

OdorBar™ is made from a proprietary light weight stainless steel treated material that is designed to harmlessly remove food and chemical odors from your hands when used like a bar of soap under cool running water. The odors are drawn to the bar and rinsed away without soap or scrubbing.

**Environmentally Friendly & Lasts Forever**

OdorBar™ will never lose its odor removing effectiveness or wear out and last for a lifetime! OdorBar™ is non-toxic, safe, reusable, recyclable, odorless, non-flammable and non-caustic. It is an ideal environmentally friendly solution for eliminating unpleasant hand odors without adding pollutants to the environment which makes it great for use in streams, lakes and rivers. OdorBar™ does not contain VOCs, harmful or ozone depleting chemicals and is especially beneficial for those suffering from allergies and chemical sensitivity.

**Applications**

OdorBar™ Hand Deodorizing Soap can be effectively and easily used for removing stinky hand odors from garlic, onion, fish, poultry, meat, game, spice, seasoning, smoke, gasoline paint, varnish and countless other chemical odors.

**Directions**

Use OdorBar™ like a bar of regular soap by rinsing your hands with it under cold running water for about 30-40 seconds and smell the difference. Repeat, if necessary. This smooth palm sized unique soap will leave your hands and skin free of lingering odors. It can also be used to remove armpit, foot and body odors and is especially useful in a stream or lake since it is non-polluting. Please note that OdorBar™ is not designed to wash away oils so it is better to clean this using regular soap before using OdorBar™ to remove odors.

**Order Risk Free**

When you purchase the OdorBar™ Hand Deodorizing Soap, you do so at absolutely no risk. It comes with a 100% satisfaction guaranteed warranty. If it fails to perform according to its specifications or is defective, we will replace it immediately.
