

Pesteze™ Solar Rodent Repeller

The new safe & humane way to eliminate rodents

Features

- ✚ Repels rodents such as moles, mice & rats
- ✚ Works by emitting annoying sonic vibrations every 30 seconds that repel rodents
- ✚ Effective range of 7,000 square feet (47' radius)
- ✚ Sonic vibrations are inaudible to humans and won't bother pets such as dogs, cats and birds
- ✚ Powered by free, clean, renewable solar energy
- ✚ Charges even when sunlight is low
- ✚ Eliminates need for noxious poisons, chemicals & messy traps
- ✚ Environmentally friendly, safe, non-toxic, clean
- ✚ Works unattended 24/7/365
- ✚ Waterproof & UV resistant

Pesteze™ Evicts Rodents Without Chemicals or Messy Traps

Rodents are truly a constant annoyance in the home and yard. Many people choose to combat unwanted pests with noxious chemical repellents and traps which can be hazardous to your health and just plain messy. The Pesteze™ sonic rodent repeller was specially designed to solve both problems. Simply insert the unit into a mole mound or ground and the clean sonic vibrations will silently repel unwanted rodents effectively without leaving a nasty smell or mess. It's that easy and safe to use! Furthermore, it uses free renewable solar energy to charge itself so it very environmentally friendly and cost effective.

How Does the Pesteze™ Solar Rodent Repeller Work?

Pesteze™ works by emitting penetrating sonic vibrations underground that effectively repel rodents because they find them very annoying. However, the vibrations are silent to humans and won't bother non-rodent pets such as dogs, cats and birds. The strong sonic vibrations are emitted every 30 seconds and have an effective range of 7,000 square feet or 47' radius. This innovative product has proven to be a very effective "unwelcome mat" for rodents!

As an added benefit, this rodent repeller is powered by free, clean solar energy and charges even when sunlight is low. It works unattended 24/7/365 and is waterproof and UV resistant.

Applications

The Pesteze™ Solar Rodent Repeller drives out a wide variety of rodents such as moles, rats and mice without the use of harmful and poisonous chemicals. It is ideal for protecting every home and yard. It is very easy to use. Just insert the waterproof unit in the ground and it will work 24/7/365 and you will never have to be concerned about rodents ever again. You don't even have to worry about power because it utilizes clean, free renewable solar energy!

Safe, Chemical Free & Environmentally Friendly Solution

Pesteze™ Solar Rodent Repeller is one of the best humane and environmentally friendly solutions you will find to safely control rodents in your home and yard. This effective product does not use any toxic chemicals and simply works by repelling pests with penetrating underground sonic vibrations that completely eliminates the need for harmful chemicals, poisons, traps or noxious materials conventionally used for rodent control. This product utilizes clean solar energy and will repel rodents with no negative impact on the environment or your health.

Specifications

This compact, attractive, energy efficient rodent repeller is approximately 13.5 inches tall. It is powered by free renewable solar energy so there are no messy wires or cost to use the unit. It weighs less than 1 pound and is very effective at repelling moles and other rodents. Due to minor changes in design or other improvements, the product you buy may sometimes differ slightly from the product described herein.
